As an ambitious undergraduate student aspiring to establish a career in front-end development, I aim to leverage my academic foundation, technical proficiency, and passion for creating intuitive user interfaces to contribute effectively to dynamic and innovative projects. Seeking opportunities to apply and expand my skills in HTML, CSS, JavaScript, and various frameworks, I am eager to collaborate with a forward-thinking team to create impactful and user-centric digital experiences.

Education**Bachelor of Science in Information Technology**

University of Southern Philippines Foundation

Technical Skills

- **HTML, CSS, and JavaScript:** Proficient in building and styling responsive web pages.

- **TypeScript:** Experience in writing strongly-typed JavaScript code to improve code quality and maintainability.
- **React.js:** Mid-level experience in creating dynamic, interactive user interfaces.
- **React Native:** Currently developing skills in mobile application development, eager to improve.
- **Flutter:** Learning cross-platform mobile development using Dart and Flutter.
- **Git & GitHub:** Experienced with version control and collaboration for managing and sharing code.
- **Firebase:** Experience in using Firebase for authentication, real-time databases, and hosting web applications.
- **Supabase:** Familiar with using Supabase for backend services such as authentication, storage, and real-time databases.
- **PHP:** Experience in backend development, creating server-side applications and APIs using PHP.
- **Laravel:** Hands-on experience in building web applications using the Laravel PHP framework.

- **Laravel Inertia.js:** Experience with building modern single-page apps using Laravel with Inertia and Vue or React.
- **SQLite & MySQL:** Proficient in designing and querying databases using relational database systems.
- **Laragon:** Familiar with setting up local development environments using Laragon for PHP and Laravel projects.
- **CSS Frameworks (Tailwind & Bootstrap):** Comfortable with Tailwind CSS and Bootstrap for rapid UI development and styling.
- **Visual Studio Code:** Experienced with using text editors and development tools for efficient coding workflows.
- **Figma:** Basic knowledge of creating effective designs and wireframes, continually improving design skills.
- **Android Studio:** Familiar with using Android Studio for developing and testing Android applications.

Soft Skills

- Excellent problem-solving abilities demonstrated through academic projects and extracurricular activities.
 - Strong teamwork and communication skills developed through group projects and coding club involvement.
 - Eagerness to learn and adapt, with a passion for staying updated on industry trends.
-

Extracurricular Activities

- Actively participated in coding club sessions, engaging in discussions and collaborating on mini projects related to front-end development.
- Participated in a hackathon at City Hall, Cebu City, where I contributed to team projects and showcased my skills in a competitive environment.
